Factual Summary

See reynen.ca for a comprehensive breakdown of the situation and the attached Notice of Constitutional Question.

I finally have a hearing before the first level of the Courts in Canada, Ontario's Superior Court of Justice (even though one of my other appeals was blocked by the Courts).

Should Canada not only deny me justice, but become complicit in double-binding me to suicide, luring me into sin, and forcing me to submit to pharmakeia (sin), I would like this matter to go before the International Criminal Court.

Please contact me so that I may provide any details you are looking for.

Canada has forgotten God.

Canada has also abandoned the rule of law.

I have no confidence Canada will do right by me, and I will begin my hunger and water strike to death, even if they become complicit in force feeding and hydrating me in order to attempt to force me to stay alive so that they may force me to submit to something I consider to be sin, should the Judge rule in Dr. Tabitha Rogers of The Royal Ottawa Mental Health Centres favour, until I have proof that my appeal will be heard by the Court of Appeals.

I will not otherwise hunger and water strike, should they not aggravated assault me again with their pharmakeia in another illegal code white.

Should this escalate from Human Rights Violations (state-backed double-binding me to suicide) to Torture (force feeding me to stop my hunger water strike to prevent them from forcing me to submit to pharmakeia which is sin) I hope the International

Criminal Court will help me quickly.

I look forward to hearing from you.
