

EVIDENCE PACKAGE - FINAL
Steven Reynen
25-4717 Ontario CCB

<https://reynen.ca> (I submit this website as EVIDENCE)

"I intend to ask to be transferred to another psychiatric facility, where I will not be treated as I have been at The Royal.

In the alternative I intend to ask for grounds privileges (which is one of the things I am presently hunger striking for) and for the law (Section 26 of the HCCA) to be respected in case Dr. Tabitha Rogers intends to make good on her threat of using Section 25 to force treatment on me while my wish/advance directive is still alive, and my possessions to no longer be arbitrarily confiscated by staff (There is no certificate to manage property).

Perhaps a PEACE BOND?

I'll self represent Andrew, just including you on this email now that I have read the document you provided.
